Frontend Software Developer, Intermediate (m/f)

WHO WE ARE: LEADBACKER is a cloud-based software that enables managers on all levels to run structured, digital dialogues with their stakeholders. Our likeminded professionals demonstrate accountability for their work, follow-through also in difficult situations, appreciation for each other and curiosity to grow as a team and as an individual.

WHERE WE WANT TO BE: LEADBACKER enables leaders on all levels to become the best version of themselves. Within five years, the firm will have leading clients in all major European markets, and it will drive client development with our strategic partners globally.

Your Profile

- BS or MS in software engineering, computer science or similar
- 2-3 years experience in software development
- Proven experience in software development and coding in relevant languages & technologies (e.g. Angular & Angular Material, IONIC, HTML & CSS, Postgre SQL, Highcharts)
- Logical thinking, structured approach to challenges
- Independent, solution-oriented, and structured workstyle
- Excellent English skills
- Inquiring mind & agile mindset
- Communicative personality with team mentality, hands-on approach, and drive
- Service orientation and urge to change

What we offer

- Job design follows your talent, your passion & the trends on the market
- Grow with a successful European start-up
- Self-determined vacation as part of the salary package negotiable (additional 3 weeks leave)
- Flexible and mobile working environment
- Continuous knowledge and feedback exchange (Working Out Loud)
- Feedback and dialogue culture as our DNA
- Ongoing training for new technologies, frameworks or tools
- Independent, solution-oriented workstyle
- Hands-on approach & team spirit

- Capacity: Full-time
- Location: Vienna / work from home
- Salary: Performance-related with a base salary
