LEADBACKER
FEEDBACK FOR LEADERS

3-5 years experience
Capacity: 20 – 38.5 h
Location: Vienna / Home Office
Salary: 40,000 EUR min

UX/UI Designer (m/f/d)

WHO WE ARE: LEADBACKER is a cloud-based software that enables managers on all levels to run structured, digital dialogues with their stakeholders. Our likeminded professionals demonstrate accountability for their work, follow-through also in difficult situations, appreciation for each other and curiosity to grow as a team and as an individual.

WHERE WE WANT TO BE: LEADBACKER enables leaders on all levels to become the best version of themselves. Within five years, the firm will have leading clients in all major European markets, and it will drive client development with our strategic partners globally.

Your Profile

– 3 – 5 years of professional experience in the field of UX/UI design or visual design of mobile & web solutions
– Studies or training e.g. in the fields of information design, IT, marketing or digital media
– Passion for positive computing
– Enthusiasm for new technologies, design trends and usability
– User interface knowledge in the design of digital services with common design tools
– Interest in trends, responsive and mobile design etc.

What we offer

– Job design follows your talent, your passion & the trends on the market
– Grow with a successful European start-up
– Self-determined vacation as part of the salary package negotiable (additional 3 weeks leave)
– Flexible and mobile working environment
– Continuous knowledge and feedback exchange (Working Out Loud)
– Feedback and dialogue culture as our DNA
– Ongoing training for new technologies, frameworks or tools
– Independent, solution-oriented workstyle
– Hands-on approach & team spirit

– Capacity: Full-time
– Location: Vienna / work from home
– Salary: Performance-related with a base salary
